Sedo-Treepoint strengthen activities in India

Sedo-Treepoint GmbH (formerly Barco-Sedo) and Innova Machines, Mumbai, India have agreed on a strategic partnership in the field of machine modernization.

Innova Machines modernizes textile machinery by implementing a new mechatronic concept which increases efficiency of existing machines.

Sedo-Treepoint as a renowned manufacturer of high-end control systems supplies the automation solution suitable for the individual machine requirement and continuous process plants.

The market for technical textiles is booming in India and therefore this strategic partnership offers an ideal economic solution.

Both companies exhibit at ITME 2008 which takes place from 15th to 22nd November in Bangalore, India.
